Professional Experience

- Graham is a Chartered Quantity Surveyor and Fellow of the Chartered Institute of Arbitrators. His experience extends from providing commercial and contractual advice, to the preparation and defence of claims for time and money, and the provision of independent expert services in formal dispute proceedings for major projects in the engineering and construction industries.
- Complementary to his 35 years of construction experience and his primary qualifications as a Quantity Surveyor and Contract Administrator, Graham has extensive experience in providing dispute avoidance and dispute resolution services on a wide range of projects from retail, high specification offices, hospitals and waste-water treatment plants to major civil engineering projects, airports, multi-storey offices, hotels, stadia, residential buildings, petrochemical, power generation, power transmission and water desalination projects.
- Graham has successfully undertaken postgraduate qualifications in the field of international commercial arbitration. He is an RICS Certified Expert Witness and Expert Determiner has been involved with numerous arbitrations on major projects throughout the Middle East.
- Graham is frequently engaged to provide independent third-party reports and has been appointed as an expert witness on matters of quantum in formal dispute proceedings.
- Graham has also provided written expert testimony to the Sharjah Courts.
